7. AEO Snapshot (AI Assistant Referrals)

No AI-assistant referral traffic detected this period (AEO tracking placeholder).

8. This Week's Actions

P1. Investigate the traffic sources and landing pages related to the 89.81% spike in clicks and 78.65% rise in CTR to rule out bot traffic or sudden campaign changes.

Effort: medium · Impact: high · Owner: strategy

P2. Optimize top-performing landing pages for conversion since the conversion volume (5769) is high relative to users (769), indicating either high repeat actions or possible tracking issues.

Effort: medium · Impact: high · Owner: technical

P3. Review keyword targeting and on-page SEO for top-traffic queries, as average position is relatively low (25.52), to capitalize on improved CTR and clicks for greater organic visibility.

Effort: medium · Impact: medium · Owner: content

P4. Audit Google Analytics and GSC conversion tracking for possible duplicate or non-human conversions, as conversion/user ratio is unusually high.

Effort: high · Impact: high · Owner: technical
